

Virtual Escape Room – Project Brief

Ormiston Families

We support families in the East of England to build resilience and make choices to improve the life chances of their children.

We take early and preventative action to support families to be safe, healthy and resilient: all our services help people to build stronger networks, learn from experience and feel in control of their own wellbeing

Our services include mental health and wellbeing, support for families affected by offending and working with communities.

Aims for 2021

In 2021, Ormiston Families will celebrate its 40th Anniversary and we would like to acknowledge our achievements, whilst at the same time raise further awareness of our vital work across the region to engage existing and new supporters.

At the same time as raising awareness of the work that we do, we want to increase our income to allow us to continue supporting vulnerable children, young people and families and grow our services across the region so we can help more people.

Virtual Escape Room – why, what do we want to achieve?

We want to create an activity that our corporate supporters can take part in virtually, in their own time and as a team to develop existing relationships, as well as encouraging new support.

To take part in the virtual escape room, corporate supporters would be asked to make a donation/pay a fee, which would raise both vital funds and awareness of the Ormiston Families.

Technical Details

- Players will take part on a PC as part of a virtual meeting, with the escape room being hosted on a web link.
- 3D format
- Animation with sound
- Time length – approximately 1 hour to complete
